PROJECTS

Portfolio : Html5, Css3, Bootstrap, JavaScript

Welcome to my portfolio website, meticulously crafted using HTML5, CSS, JavaScript, and Bootstrap. Here, you can access my resume, contact information, and browse through the projects I've undertaken. Anyone can Feel free to explore and reach out to me easily.

Starbucks Landingpage : Html5, Css

Welcome to the professionally designed landing page for Starbucks, showcasing the brand's offerings and inviting you to explore our range of products and services.

Dice Game : React js

I have developed a Dice game utilizing React.js. Upon clicking the "Play" button, users are redirected to the game page. Here, if the rolled dice number matches the specified target number, players can proceed to the next move; otherwise, the game over. And UI of this website is userfriendly.
